

## Visitors Kiosk app/program

Unit in-charge:

Events, Visitors and Exhibits Office (EVEO)

Contact person: Bea Martinez, EVEO

### Challenge:

Create a visitors' log-in program/software to be utilized by IRRI EVEO for a stand-alone kiosk access. This program should allow visitors to log-in with basic information such as name, affiliation, country of origin, category (students, faculty members, farmers, private sector, government agencies/offices, tourists), and contact details. This interface must also be able to generate monthly and/or quarterly reports of walk-in visitors.

The kiosk will be located inside the Riceworld Museum and Learning Center, with the following information included:

- Introduction to IRRI's history, mission and operations
- Map of the IRRI campus with building descriptions

### Add-ons:

- Introduction to the different sections of the Riceworld Museum and Learning Center
- Can be operated in touch screen systems
- Can be connected in IRRI's website
